ICFAI University Nagaland launches CASCT

DIMAPUR, OCTOBER 2 (MExN): At the inaugural programme of Centre for Advanced Study in Computer Technology, held on October 1 in the premise of ICFAI University Nagaland, Dr CP Alexander Pro VC of the university highlighted the significance of establishing centre.

In his speech, "Any study should not only focus on providing and developing of general knowledge but that should yield innovation which is useful to the society. Contribution of innovative ideas and technology by the youth is the present thrust of the society."

He said that information technology not only reduces the cost of production of goods and services

Student and faculty of ICFAI University Nagaland at the inaugural programme of Centre for Advanced Study in Computer Technology held on October 1.

but supports one's life either directly or indirectly and makes the life easier. Today, the world demands more skilled persons rather than a person with lot of knowledge. Development of skill is inevitable. This CASCT provides a platform to all young generation in acquiring and developing skills. CASCT curriculum is not pre developed rather contributed by the students through their innovative ideas according the current need of the society. It provides opportunities to the students to think out of the box, acquire, develop and disseminate skills." CASCT provides practical training in the field of science and technology.

A press release stated that Sanjib Das Coordinator of CASCT cum Asst Professor, department of IT & Mathematics, Kamal Hussain, Lecturer, department of IT & Mathematics stressed on the rapid pace of changing technologies and the concept of teamwork in technological innovation.
